 @abstrartdays

Hi! I'm Maitreyee.

Like many designers, I grew up with a passion for drawing and artistic pursuits of all kinds. After high school, this love of creating lead me in various directions which included becoming a fashion designer, interior- decorer, and painter. But as soon as I was introduced to the world of digital graphics, I fell in love!

I now am a Graphic Designer with a strong passion for branding and illustration. I bring innovative ideas to life by giving them a voice and a unique approach by creating a very aesthetically pleasing story through my design.
